Sub	trac	tion		Addition	
Make 10 using the ten frame	Part whole model	Find the difference	Taking away ones Counting back	Combining two parts to make a whole: part whole model.  Starting at the bigger number and counting on- using cubes.  Regrouping to make 10 using ten frame.	EYFS/Year 1
Use of base 10	Make 10	Part whole model	Counting back Find the difference	Adding three single digits.  Use of base 10 to combine two numbers.	Year 2
	counters)	(up to 3 digits using place value	Column method with regrouping.	Column method-regrouping.  Using place value counters (up to 3 digits).	Year 3
		(up to 4 digits)	Column method with regrouping.	Column method- regrouping. (up to 4 digits)	Year 4
decimals- with the same amount of decimal places.	Start with place	Abstract for whole numbers.	Column method with regrouping.	Column method-regrouping.  Use of place value counters for adding decimals.	Year 5
decimal places.	Place value counters for decimals- with	Abstract methods.	Column method with regrouping.	Column method-regrouping.  Abstract methods.  Place value counters to be used for adding decimal numbers.	Year 6

Division		Multiplication
and put them in groups of 3, how many groups?  Use cubes and draw round 3 cubes at a time.	Sharing objects into groups  Division as grouping	Recognising and making equal groups.  Doubling  Counting in multiples Use cubes, Numicon and other objects in the classroom
Repeated subtraction	Division as grouping  Division within	Arrays- showing commutative multiplication
subtraction.  2d divided by 1d using base 10 or place value counters	Division with a remainder-using lollipop sticks, times tables facts	Arrays 2d × 1d using base 10
concrete and pictorial)	Division with a remainder  Short division (up to 3	Column multiplication- introduced with place value counters. (2 and 3 digit multiplied by 1 digit)
remainders)	Short division  (up to 4 digits by a 1 digit number including)	Column multiplication  Abstract only but might need a repeat of year 4 first(up to 4 digit numbers multiplied by 1 or 2 digits)
Children should exchange into the tenths and hundredths column too	Short division  Long division with place value counters	Column multiplication Abstract methods (multi-digit up to 4 digits by a 2 digit number)
